5. RESOURCES OF THE LDA MOSTAR FOR 2007	15

2007 has been an important year for consolidating our commitment to build democratic society in Mostar: we have further reinforced our partnership with the City of Mostar and our network of European local authorities who committed themselves to share with us the efforts to promote democracy and respect for human rights.

All our projects and initiatives as well as our enthusiasm in our everyday job are constantly motivated by our mission: to support the democratization process in the city of Mostar by strengthening the good governance and capacity building of local authorities and civil society and the participation of citizens in public life.

In fact the great importance of democratic governance and active citizens lead us in our activities aiming at reducing social exclusion, promoting human development and sustaining local development.

Our innovative methodology is the decentralized multilateral cooperation which underlies the common engagement and responsibility taken by local and international Partners to operate in Mostar area through the LDA Mostar.

That methodology allows us to share local needs and challenges with our local and international Partners and find the most proper answers by using LDA Mostar deep knowledge of local resources and characteristics.

Furthermore, 2007 confirmed the capacity of the LDA Mostar to work on the issue of self-sustainability as the LDA Mostar ownership and adherence to local community are reinforced and guaranteed by being a locally registered NGO. The LDA Mostar demonstrated its capability to look for further resources and partnerships at local and international levels which can ensure the long – term sustainability of the Agency.

Our main 2007 goal has been consolidating the basis for becoming a resource centre for the Cantonal government, the city administration and the civil society, and providing them with active tools for the harmonization to the European democratic standards.

The same goal is on track with the report of LDA Mostar activities in 2007, which deal with

- 1. strengthening capacity of institutions and individuals,*
- 2. improving the dialogue between citizens and local authorities,*
- 3. empowering youth and*
- 4. support local sustainable development .*

All of this would not been possible without the support of the Council of Europe and its Congress of Local and Regional Authorities, without the political and financial support of the host- City of Mostar, of all our international Partners and of the Association of Local Democracy Agencies.

I would like to thank all of them and all people who trust us.
